

Hey That's All Right

Ray Wylie Hubbard

Now Josey said she seen you in this downtown cafe
where you and me used to go
and she told me that your old boyfriend johnny and some kid
got a gig down there doing one of them acoustic duos
and she told me you sat by the stage and ordered a margarita
and when it came you smiled at Johnny and said "ole"

D A D

well I know that you can do what you want

D A E D C#

but it still hurts I hate to say

Chorus
Hey that's all right, I believe I'll be okay

Hey that's all right, I believe I'll be okay
Now me, I been hangin' out down at the harbour
with them old hard boys from the double a
yeah I like old stories they tell

and how they ain't gonna be drinking just for today

and then I take the guitar you gave me, the one I didn't pawn

and then I go over to this little folk club and wait around to play

'Cause now I can do what I want but I gotta ask a favour everyday
Hey that's all right, I believe I'll be okay

Hey that's all right, I believe I'll be okay
Solo
And then Josey told me you had a few more margaritas

and you got up on stage and started playin' the tambourine

and you started singin' oh la la la

loud real loud off key in the microphone

and shaking it like they never seen and then the cops came

and your old boyfriend and the kid had to convicne them not to haul you

away

I don't know why Josey told me this

perhaps it was just to brighten up my day
Hey that's all right, I'm gonna be okay

I say hey that's all right, I am gonna be okay

I say hey that's all right, I'm gonna be okay

Woh hey, that's alright, I'm gonna be okay

Ole
