Hellbound

Eminem

The little green flower with the yellow on top
You told me the name but I soon forgot
I know roses and forget-me-nots what's
That little green flower with the yellow on topWe got married in a little white church
I had a big red rose on my shirt
You had some flowers but you gave them away
And the little green flower was bloomin' that dayIt's that little green flower with the yellow on top
You told me the name but I soon forgot
I know roses and forget-me-nots what's
That little green flower with the yellow on topRemember the night that I came home drunk
Stopped in the driveway got you a bunch
You got mad said they shouldn't be picked
They were there next morning when I woke up sickIt's that little green flower with the yellow on top
You told me the name but I soon forgot
I know roses and forget-me-nots what's
That little green flower with the yellow on topIt's been a long time since I gave you that ring
You often said I didn't know a bloomin' thing
But happy anniversary and look what I got
Some little green flowers with the yellow on top
