

Actions & Motives

10 Years

Wait

The fact you did it

But don't admit it

Won't make you innocent

Fate

Will find you wicked

And turns you victim

For everything you have done

So justify the reason to kill

Reason to kill

I bet you will

You're fooling no one but yourself

But yourself

I wish you well

Oh what tangled webs we weave

When we practice to deceive

I know you well

I know you well

[Chorus]

Actions and Motives

Bear the cross

Wear the crown

There's just some evil you can't bleed out

Hell has to notice

Your Actions and Motives

Bear the cross

Wear the crown

There's just some evil you can't bleed out

I just get it

How you manage

To justify who dies

Like judge and jury

You're the very

One who crucifies

Don't get your hands dirty to kill

Dirty to kill

Use someone else
Know all your lies are measured in hell

Measured in hell
I wish you well
Oh what tangled webs we weave
When we practice to deceive
I know you well
I know you well

[Chorus: x2]
