

She Said (remix)

Twiztid

Let me shave that pussy!

I should have knew she was a freak by the walked And when I talked to her it was like she never got caught To this day, she swear to God it wasn't shit Unless she straight up just tripped and fell up on a fat dick I know I been around the block a few times So I really didn't mind that her mouth had some stretch lines She had me thinking I'm a straight up Mack When in fact, I'm just another who can hit it from the back And attack her intestinal track and leave a puddle of spat Down the middle of her pimpled ass crack And then smack, I had to give that bitch a black eye Because the pussy just don't feel right, don't know why I thought I was the shit and had this all on lockdown Come to find out that my girl's just a cockhound I couldn't deal with it, I had to bail out quick Because that bitch just love sucking strange dick

She said I'm the only one Said I'm the only one Said I'm the only one Fuck You! She said I'm the only one Said I'm the only one Said I'm the only one Fuck You!

You going to random men just for action What am I? Some kind of dumb lame fuck? Or just another dick in your butt? Say something Were you trying to crush my heart just for fun?
