

# Long Time Coming

[Maria Mena](#)

Your patronizing stare can watch me heal.  
What I would give for you to tae the wheel  
It's just been a long time coming  
The strong resemblance to my mother's womb  
is the reason why I will not leave this room  
It's been a long time coming The lack of self-esteem has grown on me  
I'm not as strong as I appear to be  
It's been a long time coming My lullaby sounds more like distant screams  
I wake up sleep deprived after every dream  
It's been a long time coming My flesh makes little sense compared to yours  
I wish my restlessness would open doors  
It's just been a long time coming
