I Dare You

Bonaventure

With my tongue tied in knots
its easier to get my thoughts across
and after all weve lost
I broke through
I dare youBruised and blinded
its taken me so
long to find it
its making me whole
if this is what youve always
wanted to find
free your mind
I dare youdespite all the years
Ive waited for love to find us here
and give me a sign
one day it broke through
I dare youThe light in the distance is getting closer now
as the past is fading into the background
and we were
so naive
but cant you see?
Its what brought you here to me
