Friday

US5

Yeah, yeah
Let's do this
What you gonna do on friday night, friday night, friday night
What you gonna do on friday night, ahhh let's go[Vince:]
First class, no trash
You're the kind of girl that I gotta have
Got a little more time to spend and we're oh so freaky now
So fine, divine
Make me wanna take you on a wine and dine
Fly by in a lowride, cause we all came down for friday[Richie:]
You're into something new, I like the things you do
Let's party on bring somebody along and make you say[Hook:]
Come on, are you ready?
Come on, say are you ready?
We shake it to the left and we move it to the right
Thank god it's friday night
Come on, are you ready?
Come on, say are you ready?
If you really know how to get the party right
Thank god it's friday night
What you gonna do on friday night, friday night, friday night
What you gonna do on friday night, ahhhh let's go[Jay:]
Baby girl's got style and grace,
Love the way you act, when you play your games
Keep it up for the weekend
All the girls in the club, what you're feeling feeling
It's time to get freaky, baby.
Ain't no time for sleeping, baby
Get on down to the beat tonight, cause we all came down for friday[Richie:]
You're into something new, I like the things you do
Let's party on bring somebody along and make you say[Hook:]
Come on, are you ready?
Come on, say are you ready?
We shake it to the left and we move it to the right
Thank god it's friday night
Come on, are you ready?
Come on, say are you ready?
If you really know how to get the party right
Thank god it's friday night

What you gonna do on friday night, friday night, friday night
What you gonna do on friday night, ahhhh let's go[Rap:]
It's friday night and we got it goin on
Get up out your seat, keep it grooving to the song
It's friday night and we got it goin on
Get up out your seat, keep it grooving to the song[C-Part:]
