I Am Legend

Supermachiner

Yeah, when I'm in the sky
I'm too far away gotta kick in to feel it
Terminate another no one is my brother
Yeah, the sun burns on me
Well, hell is home tomb city stone
Nail me to another cross
(Yeah)
Pour the gasoline, yeah burn the fucker clean
Tell me who'd she coo I want her
Like a suicide flex hit the run and hide
Tell me who'd she coo shine the body
Yeah, omega man say
"It's all gone away, I cannot believe it"
Well, I am the one a God with a gun, I am Legend
Planet grave hard kill the slave
Nail me to another cross
(Yeah)
Pour the gasoline, yeah burn the fucker clean
Tell me who'd she coo I want her
Like a suicide flex hit the run and hide
Tell me who'd she coo shine the body
Vampire sharpshooter "O", I said
"A messenger for the damned"
I got a holy gun come a loaded to kill everything that I am
Well, I am the only nitty-gritty
Ride a rail and look at the crime, yeah
Well, I am the only one they can find
(God)
Pour the gasoline, yeah burn the fucker clean
Tell me who'd she coo I want her
Like a suicide flex hit the run and hide
Tell me who'd she coo shine the body, yeah
