

Pick Up the Phone

F.R. David

Said goodbye when I left
To your answering machine
Then you jumped in a plane
Girl, you know what I mean Pick up the phone, oh yeah
Pick up the phone, oh please
I need your voice again
Hearing your voice again Waiting so many years
Feeling closer to you
Not a sign, not a trace
Baby, what can I do? Pick up the phone, oh yeah
Pick up the phone, oh please
I need your voice again
Hearing your voice again Pick up the phone, let me know
I don't want to lose you, girl
Don't hang up, get in touch
Fill the shadow in my life
What you're doing now Intercommunication via satellite
You can call me long distance
Whatever you like Pick up the phone, oh yeah
Pick up the phone, oh please
I need your voice again
Hearing your voice again Pick up the phone, let me know
I don't want to lose you, girl
Don't hang up, get in touch
Fill the shadow in my life What you're doing now
Can't we straighten it out?
Won't you speak your heart? What you're doing now
Can't we straighten it out?
Won't you speak your heart? Won't you speak your heart
Can't we straighten it out?
What you're doing now
