

# Midnight Sun

## Neon Hitch

Verse 1:

It's always one night, one night, with you  
Room 301 in my dressing gown  
Bottle of red wine, red wine, for two  
When the sun comes up then I come down  
He wanna fuck me like a rock-star  
The Beatles said "All you need is love"  
But I feel empty as this mini-bar  
And in the morning I'm hungover you

Chorus:

You never say that you love me, no  
You always turn over when we're done, yeah  
Why won't you say that you love me, no  
Two bodies under the midnight sun, yeah  
(I just wanna be loved by you)

(I just wanna be loved by you)

Verse 2:

I left my diamond, gold ring, on the table  
But you saw right through me and said "I don't"  
That's when I asked and you told me, no labels  
So why do I come back, when I promise I won't  
He wanna fuck me like a rock-star  
The Beatles said "All you need is love"  
But I feel empty as this mini-bar  
And in the morning I'm hungover you

Chorus:

You never say that you love me, no  
You always turn over when we're done, yeah  
Why won't you say that you love me, no  
Two bodies under the midnight sun
