

# Little Star

**Stina Nordenstam**

Little star, so you had to go  
You must have wanted him to know  
You must have wanted the world to know  
Poor little thing and now they know Little star, I had to close my eyes  
There was a fire at the warehouse  
They're always waiting for a thing like this  
Came travelin' from over town for you, little star Little star, so you had to go  
You must have wanted him to know  
You must have wanted the world to know  
Poor little thing and now they know Laudamus, Adoramus Te, Domine  
Laudamus, Benedicimus Domine Deus  
Laudamus, Benedicimus Domine Deus  
Cum Sancto Spiritu in gloria Dei Patris For you, little star
