

Forever In Armitron

Boat

Cold gettin' colder
Turn around the heater
?????
Scared of almost everything

Walk past the convenience store
that's right across the street
Up the stairs and on the bus
you get yourself a seat

Try to read the paper
But your hands aren't staying steady
Listen to the Walkman
Tune into the FM

It's a funny car commercial
You wish you would try to be to calm
You wish you would try to be to calm
You wish you would try to be to calm

And when you're going to get to gas
You walk right next to me
The mental patient, the solid killer
Hanging inside of me

And of the all horrible things
we cannot even see
We cannot even see

(Spoken) Am I flying solo on this?

Start at the top almost every day
Bust down Denny into Federal Way
Back up Olive gonna' catch my breath
Sticky situation think I've had enough

Start at the top almost every day
Bust down Denny into Federal Way
Back up Olive gonna' catch my breath

Sticky situation think I've had enough

Forever in Amitron
You don't believe it?
I wanna' know why
I wanna' know why

Forever in Amitron
You don't believe it?
I wanna' know why
I wanna' know why

Forever in Amitron
You don't believe it?
I wanna' know why
I wanna' know why

Forever in Amitron
You don't believe it?
I wanna' know why
I wanna' know why

I wanna' know why
I wanna' know why
I wanna' know why
I wanna' know why
