

# Violet Stars Happy Hunting!

Janelle MonAe

I'm an alien from outer space (outer space)  
I'm a cyber-girl without a face a heart or a mind  
(A product of the man, I'm a product of the man)  
Ci ci ci

I'm a savior without a race (without a face)  
On the run cause they? hit our ways and chase my kind  
They've come to destroy me

And I think to myself  
(Impossible, it's impossible for me)  
Wait, it's impossible  
Now they're getting at me (and the police are after you)  
They're even after you  
For loving too

And all the sirens go  
The sirens go  
Oh baby uh you know the rules  
I love you and I won't take no?

They say that Violet Stars was such a freak (such a freak)  
When you're all in lost in love  
Following them dark? of Neon Valley streets (of Neon Valley streets)  
A pretty day makes a pretty picture  
But fall in love and they're coming to get ya  
Who knew 10 men with guns were at the door  
They trick and treat?

Wait, it's impossible that they're coming for me (the police are after you)  
And now they're after you (for loving too)  
Baby, I hear the sirens go  
Sirens go  
Come on Baby, cause here they're coming now (You know the rules)

It's impossible that they're coming for me (the police are after you) (he loves me too)  
And now they're after you (for loving too) (he loves me too)

Baby, I hear the sirens go  
Sirens go  
(I said uh baby)

You know the rules
