

Erotic Zoophilism

Broken Hope

As I pet and fondle animals, I get aroused sexually
Feeling with the deepest desires to indulge in bestiality
 Whether it was dogs, cattle, sheep or horse
 Animals are raped easily, they cannot scream for help
Though they must be restrained as they kick, bite and yelp
 Erotic zoophilism, a sexual abnormality
 A behavior disorder that's controlling me
With women I'm stuck with complete impotence
I've found the best piece of ass walks on four legs
The kind you can ride, herd or rolls over and begs
 I must muzzle a dog to prevent a serious bite
 Rear limbs spread and tied, I fuck a canine tonight
 As I orgasm inside, thoughts cause me to wonder
I imagine a litter of man-pups suckling the bitch mother
 Sexually stimulated at the sight of fur
 My erotic preferences shall disgust for sure
 For lesser creatures I am lust crazed
 My finest fucks in the pasture laid
With livestock of all kinds I've had intercourse
 Only with animals I wish to have sex
 Erotic zoophilism, a sexual abnormality
 A behavior disorder that's controlling me
With women I'm struck with complete impotence
I've found the best piece of ass walks on four legs
The kind you can ride, herd or rolls over and begs
 I must muzzle a dog to prevent a serious bite
 Rear limbs spread and tied, I fuck a canine tonight
 As I orgasm inside, thoughts cause me to wonder...
 Deep in my being, I tap my primal core
 Plunging into the worst form of impiety
 As I betroth in sacrilegious unions
 With the most feral zoological breeds
 My most primitive instincts take controls
 Excited by various wild and barnyard scents
 Into a bovine rump I will soon trespass
 Relinquishing human milt beneath a quadruped tail
 Animalia in heat ignites unwholesome desire
