

Stand Your Ground

Johnny Van Zant

If you're feelin' down
About the dues you been payin'
This old world is gettin' harder
To face every day
Oh, you better get off your pride
'Cuz there's nowhere left for you to hide
And it's gonna be hard
Just to make it through another day
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
It's a long lonely road
It takes a certain kind of man
To carry this load
And if you want it all you gotta do is try
So, get back on your feet
And get out in the street
Make somethin' of yourself
It's time to be a man
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
You got to stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
Stand your ground
Don't ever let nobody hold you down
Stand your ground
Don't ever let no one hold you down
