

Eureka Signs

Guided By Voices

You tell me you've come to your senses
The coast is still in sight
Eureka signs - I'm slowing down
You had me to remind me
You told me to remind you Hell in the eye of consensus
Approaching shreds of night
In bleakness, blind as the ocean's mind
You want to look behind you
You told me to remind you The sinful eye
Offends you every time
Assailants' oversight
Their vision has no right
You want me to remind you Every day it's the god awful same
I wanna go solo and drive
