

Miles Away (Johnny Vicious Warehouse Mix)

Madonna

Miles Away

I just woke up from a fuzzy dream
You never would believe those things that I have seen
I looked in the mirror and I saw your face
You looked right through me, you were miles away

All my dreams, they fade away
I'll never be the same
If you could see me the way you see yourself
I can't pretend to be someone else

You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best, we're miles away
So far away, so far away, so far away, so far away
So far away, so far away, so far away, so far away

When noone is around then I have you here
I begin to see the picture, it becomes so clear
You always have the biggest heart
When we're 6.000 miles apart

Too much of no sound
Uncomfortable silence can be so loud
Those three words are never enough
When it's long distance love

You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best, we're miles away
So far away, so far away, so far away, so far away
So far away, so far away, so far away, so far away

I'm alright
Don't be sorry, but it's true
When I'm gone, you realize

That I'm the best thing that happened to you

You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best, we're miles away

You always love me more, miles away
I hear it in your voice, we're miles away
You're not afraid to tell me, miles away
I guess we're at our best, we're miles away
So far away, so far away, so far away, so far away
So far away, so far away, so far away, so far away

So far away, so far away, so far away, so far away
So far away, so far away, so far away, so far away
So far away, so far away, so far away, so far away
