Could You Ever

C21

Please forgive what I said
All my words I regret
Hope you never ever let go
Now I know I needed you so
Tears are drowning my heart
I need you to
Tell me tell me baby[Chorus]
Could you ever love me again
If I say that I'm sorry
Could you ever hold me
The way we used to hold each other
Would you ever trust me same
If I say that I'm sorry
Could you ever love me againI softly whisper your name
Don't want to burn out the flame
I never ever doubted my mind
When there's a mountain to climbYou got the words in your heart
I need you to
Tell me tell me baby[Chorus]I want you close
Closer than close
Could you ever love me again
