

# Destroyer Of Senses

## Shadows Fall

The sweet taste of self destruction  
Waves of purity wash away the memories  
I keep on falling off  
I keep on falling off  
The agents of change will dissolve  
Into the fabric of our very existence  
I keep on falling off of this straight and narrow line  
The calm embrace of a sedated mind  
I keep on falling off of this straight and narrow line  
The calm embrace of a sedated mind  
Giver of life destroyer of senses

I invoke!, I invoke!  
Giver of life destroyer of senses  
I invoke!  
Giver of life destroyer of senses  
I invoke!  
The sweet taste of self destruction  
Waves of purity wash away the memories  
I keep on falling off of this straight and narrow line  
The calm embrace of a sedated mind  
I keep on falling off of this straight and narrow line  
The calm embrace of a sedated mind
