# Shooting Gallery

## Chant

Just relax...
Tie it off...
I will help you
Help you put it in
Oh yes you can stay
All are welcome
In the shooting...
The shooting galleryWon't you come over
I'll let you love me
We may never have this chance again
Yes come on over
I let you love me
We may never, ever pass this way again
In the shooting galleryThe sound...
And the colour...
Are sweeping you...
Sweeping you away
Are you sleeping my friend?
No I fear you are dead
In the shooting...
The shooting galleryBut, come on over
And I'll let you love me
We may never have this chance again
Yes come on over
And I'll let you love me
We may never, ever pass this way again
In the shooting gallery
