Leave the Door Wide Open

NO

[Verse 1]
I know you're out there
I know you're fine
I know you probably think about this all the time
We come together, we fall apart
We make some noise inside a room and call it art[Chorus]
Don't worry if it's a cold night
Cause we all go up in flames
We fall heavy but we're so light
So leave the door wide open[Verse 2]
So I go out there
I walk the room
Exchange a face up to everyone but you
Im coming over to find your smile
But you already walked the gap for half a mile[Chorus]
Don't worry if it's a cold night
Cause we all go up in flames
We fall heavy but we're so light
So leave the door wide open[Verse 3]
There she goes
She's leaving town beside a man she hardly knows
And then she calls me, he broke her heart
Now she's collecting all the pieces of her love before the light gets dark[Chorus]
Don't worry if it's a cold night
Cause we all go up in in flames
We fall heavy but we're, we're so light
So leave the door wide open[Verse 4]
There's a mattress in the hall
Leave the door wide open now
Now she's comparing what she's torn
So leave the door wide open
And as the orchestra comes in
Leave the door wide open now
And now she's tearing out her mind
So leave the door wide open
You watch her do this every time
Leave the door wide open now
But you still wonder how she is
Leave the door wide open

That convoluted happiness
We leave the door wide open now
We come together, we fall apart
We make some noise inside a room and call it ar-ar-ar-art![Chorus]
Don't worry if it's a cold night
Cause we all go up in flames
We fall heavy but we're so light
So leave the door wide open[all together, Verse 5]
Don't worry if it's a cold night
[Leave it open, leave the door wide open now]
Cause we all go up in flames
[We fall apart, we make some noise inside a room and call it art]
We fall heavy but were so light
[Leave the door wide open now]
So leave the door wide open
Leave the door wide open now
Leave the door wide open
