Condition Of My Heart

Justin Guarini

How much time has passed since you said goodbye
Got your message today asking how am I?
Well I'm doing just fine to admit the truth
Hasn't crossed my mind, all I needed was some time
Was it always this strong, I remember all how I criedThe night that you said goodbye
You expected me to die, but I made a brand new start
And got on with my life, I did what I had to do
To get myself over you, I'm not falling apart
You under estimate the condition of my heartThere was a time you were every breath of mine
I was ready to give the rest of my life, you walked away
And now you're saying you can walk right back into my life
Like nothing happened and I won't put up a fight
No, you left me all alone
I wanna know, where were you when I cried?The night that you said goodbye
You expected me to die, but I made a brand new start
And got on with my life, I did what I had to do
To get myself over you, I'm not falling apart
You under estimate the condition of my heartI think you said all that you need to say
'Cause it's not gonna matter anyway
Am I getting through to you, I've heard it all before
And now you've changed mind, you lost your only chance
When you said goodbye
I wanna know, where were you when I cried?The night that you said goodbye
You expected me to die, but I made a brand new start
And got on with my life, I did what I had to do
To get myself over you, I'm not falling apart
You under estimate the condition of my heart
You under estimate the condition of my heart
