

Your Fires

All The Luck In The World

You've got your head and your heart mixed up
And there's nothing I could say and there's nothing I could do to prove you wrong
You've got your head and your heart mixed up
And I think that i knew and I think that i've known all along
But you knew we had it coming, you knew we had it coming, you knew we had it coming
You knew we had it coming, you knew we didIt's time to tell them what we know
You said you'd stay if I would go
So i'll go, so i'll go
And I said i'd never let you down
You said you won't fuck me around
But we know, but we know
That I'm an eight and you're a ten
Well i guess it's fate has me winning
Or at least it did at the beginning
It's time to tell them what we know
You said you'd stay if I would go
So i'll go, so i'll goAnd I said that i'd stay up all night
But you got drunk and I got tired
So can we just put out these fires
Oh can we just put out these firesTomorrow, tomorrow, tomorrowI said that i'd stay up all night
But you got drunk and I got tired
So can we just put out these fires
Can we just put out these firesTomorrow, tomorrow, tomorrowAnd I said that i'd stay up all night
But you got drunk and so I lied
Cause when you're drunk you just pick fights
Andi'd say yeah I know you're right
Because I know he cut you deep
And so I watch you fall asleep
And hope that you might dream of me
I'd hope that you might dream of meAnd not him, not him, not him
