That's My Friends

Semi Precious Weapons

Doing splits on tables
Drinking bottles, pushing faders
Dripping wax on aviators
That's my friendsLeaving larger than we oughta
Every night ends 'til tomorrow
Do it, do it all again
That's my friendsIf you have a party we'll come
And we'll overstay our welcome
That's how we do it where we from
That's my friendsThat's how we do it where we from (x3)We ain't giving up
'Til we had enough
We ain't giving up
That's my friends (x2)You know, all the good thinking
Starts with a little day drinking
And all my girls singing
That's my friendsPounding pavement 'til we get it
'Cause the red's our way to live it
It's higher than the limit
That's my friendsIf you have a party we'll come
And we'll overstay our welcome
That's how we do it where we from
That's my friendsThat's how we do it where we from (x3)We ain't giving up
'Til we had enough
We ain't giving up
That's my friends
