

Wicked

Tyler Shaw

It's Friday, in the underground
I'm in London, lost in the crowd
and I see you, ya I see you Styling, with that confidence
When you're smiling, I don't stand a chance
I see you, ya baby I see you (Pre Chorus)
Tell me how it could feel if I ever come and talked to you
My mind is telling me something,
It's telling me to make a move
I swear don't usually do this,
But somethings coming over me
But I can't hide the way I'm feeling
You're wicked when you work it out (Chorus)
Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to get with you,
Just trying to figure you out now
Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to play your heart,
Just trying to figure you out now I'm dying, with this kind of love
When you're flying, so high above
and I need you, ya I need you So hazy, when you feel like this
It's so crazy, but you're worth the risk
and I need you, ya baby I need you (Pre Chorus)
Tell me how it could feel if I ever come and talked to you
My mind is telling me something,
It's telling me to make a move
I swear don't usually do this,
But somethings coming over me
But I can't hide the way I'm feeling
You're wicked when you work it out Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to get with you,
Just trying to figure you out now
Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to play your heart,
Just trying to figure you out now (Bridge)
I can fight the way I'm feeling

Want you every day
I can't fight the way I'm feeling
Want you every way Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to get with you,
Just trying to figure you out now
Oh, you're wicked when you work it
Oh, you're wicked when you work it out
Not trying to play your heart,
Just trying to figure you out now So big, so hot, so crazy (x6) You're wicked when you work it
You're wicked when you work it out
