

# Hard As Iron

## Judas Priest

Whipcrack, stings the sky  
Don't mess with me I'm danger  
The meanest one alive Earthquake, breaks the Richter scale  
The more that you resist  
The more pain you'll feel I'm blazing on to glory  
There's thunder in my veins  
And nothing stands before me  
Forever I'll remain Hard as iron  
Sharp as steel  
Stop for no man  
You better beg and kneel Untouched, cold as ice  
I'll turn your blood to water  
Strangle in my vice Shock waves, bones to dust  
You're messin' with a mine field  
So expect the worst I'm blazing on to glory  
There's thunder in my veins  
And nothing stands before me  
Forever I'll remain Hard as iron  
Sharp as steel  
Stop for no man  
You better beg and kneel As I destroy, last thing you'll hear me cry  
Is victory, is victory I'm blazing on to glory  
There's thunder in my veins  
And nothing stands before me  
Forever I'll remain Hard as iron  
Sharp as steel  
Stop for no man  
You better beg and kneel
