

Saving Grace

[Matt Stamm](#)

I've got a feeling that you're feeling what I'm feeling
Great minds think alike
These are the skating days
And we've just got to stay
One step ahead of the melting ice

We will reach that solid place
Where nothing falls through
We will be our saving grace

CHORUS: Saving grace
Saving grace
Day by day
We will be our saving grace

You've got a picture in your mind and it's in my mind
White sand, rum and Coke
As good as it can get
Taking in the sunset
Feeling like the richer folk

We will reach that feather place
Where nothing is hard
We will be our saving grace

CHORUS

In between the hell and holiness
You will always be my life and breath
And I will be your
Saving grace

CHORUS
