Respect

Devour the Day

Advisory - the following lyrics contain explicit language:

Where do I even begin
How could you do this again
and think that we would stay friends
You think you're innocent
This wasn't part of the plan
You turned you back and you ran
but what I don't understand
is how you live with it
Respect
You don't deserve it
You won't get any from me
unless you earn it
Respect
Your not worth it
I'll never be like you

Your like a blood sucking leech
a parasitic disease
you only take what you need
and then your done with it
face it
you wasted
the work that we did
You took the easy way out

Respect
You don't deserve it
You won't get any from me
unless you earn it
Respect

Your not worth it
I'll never be like you

Never, Never, Never

i Always knew you were a coward
I knew you were a fake
a fraud
i knew you'd run like a bitch

Respect
You don't deserve it
You won't get any from me
unless you earn it
Respect
Your not worth it
I'll never be like you
