

Superstar Woman (Long Version)

Bad Company

Well my baby, she's a superstar
She's got diamond fingers,
Drives a super car
When I see you burnin' down the highway
Driving everybody insane
And I ask you, are you going my way
Don't you want to know my name
I say, baby give me one little chance
To show you that I can romance
Baby give me one little chance
To dance with you Well my baby, baby
She's a man-eater
And she's mine, all mine
Life couldn't be sweeter,
When I see you on a TV programme
You're driving me insane Then I hear you on a radio
I'm going to get you some day
Baby give me one little chance
To show you that I can romance
Baby give me one little chance
To dance with you Now when I'm lonely, she comes to me
And when I'm tied down,
She set me free, she set me free
Baby give me one little chance
To show you that I can romance
Baby give me one big chance
To dance with you Oh my baby, she's a man-eater, yeah
And she's mine, all mine
Life couldn't be sweeter, yeah, yeah, yeah When I see you burnin' down the highway
Driving everybody insane
And I ask you, are you going my way
Don't you want to know my name
I said, baby give me one little chance, right now,
To show you that I can romance
Baby give me one little chance
To dance with you,
I want to dance with you And when I'm lonely, she comes to me
And when I'm tied down,
She set me free, she set me free, yeah, yeah

Oh, oh, I'm dreaming
Oh, oh, I'm sleeping
I want to get you baby,
Oh, oh, oh, get you baby,
I'm going to get you baby,
Hey, hey, hey, hey
Going to get you baby, yeah, yeah.
