

# Fight To Win

## Decyfer Down

Well you wanted a war  
You got it  
Now I'm coming around  
And I'm standing the ground  
Your strong arm and rampages  
Just drill in my fear  
And it won't keep me here Looks like no way up  
But I'm one man down  
I'm pushed to break down  
We fight to win  
We will find a way  
We stand to live  
We will find a way  
You turn to the next page  
To forget what you done  
And it can't be undone  
You try to safe face  
While we shop and await  
A dip of the game Looks like no way up  
But I'm one man down  
I'm pushed to break down  
We fight to win  
We will find a way  
We stand to live  
We will find a way You're falling down now  
We won't let go  
We won't get on  
We fight to win  
We will find a way  
We stand to live  
We will find a way  
We will find a way
