# Drinking with the Devil

## Rainbow

I never felt like this before
I think I'm gonna explode
Had so much I couldn't take no more
I'm heading for an overload
Oh no here I go
I can see the end
Looked around and I heard the sound
Of have one more my friend
Drinking with the devil
Gonna raise some hell
I'm just a rock and roll rebel
Got my soul to sell
Out all night till the sun comes up
You know I'm never gonna learn
Raise my glass and fill my cup
I'm playing with fire
And I'm gonna get burned
Like before he walked through the door
A glass was in his hand
Sat me down and poured me one more
And said I'm at you command
And I was drinking with the devil
Gonna raise some hell
I'm just a rock and roll rebel
Got my world to sell
Out all night till the sun comes up
You know I'm never gonna learn
Raise my glass and fill my cup
I'm playing with fire
And I'm gonna get burned
Like before he walked through the door
A glass was in his hand
Sat me down and poured me one more
And said I'm at your command yes I am
Drinking with the devil
Gonna raise some hell
I'm just a rock and roll rebel
Got my soul to sell
Drinking with the devil

You know I had my fill
Drinking with the devil
And he sticks me with the bill
