Shape Shifter

Strvngers

When nothings left all that remains
is a scab to tear away
a sudden grip upon my wrist
reaching from the ground below
I knew you'd keep your promise
never let me go

some of us die without warning
others die death by design
I couldn't tell if this was real
or a phatasmagorigal wraith
I swear I saw shape shifter's dancing on my grave

The darker place inside my mind
the place the stranger in me hides
in life no one gets out alive
I feel it cut right through me like a knife

some of us die without warning
others die death by design
I couldn't tell if this was real
or a phatasmagorigal wraith
I swear I saw shape shifter's dancing on my grave

Is there something left
from all the year's between
the fear of life and death
has got me on my knees
(the years between)

some of us die without warning
others die death by design
I couldn't tell if this was real
or a phatasmagorigal wraith
I swear I saw shape shifter's dancing on my grave
