

Mind Over Matter

Larry Greene

Mind over matter
Will make a winner
Mind over matter
Be the bigger When we look inside
Then we will win or lose or draw
Everything we are-you know
You've got to give it all Mind over matter
Now we are winning
Mind over matter
A new beginning Look you in the eye
And I will take it to the wall
Give it all for life
Pick yourself up when you fall Mind over matter
Will make a winner Sometimes they say that it's just a game
That the fools love to play
A life is better
When you live it upon the edge
I tell you what I need
The challenger can see
There's something to be said
About the possibilities Mind over matter Now we are winning
Mind over matter
A new beginning Mind over matter
