

# Something Good

## Dr. Feelgood

(gordon russell)Something good, something bad  
Something special, something sad  
Something good, something bad  
Gonna get it with or without youSomething weak, something strong  
Not too much, and not for long  
Something weak, something strong  
Gonna get it with or without youI don't need a shot, I'll take what you've got  
Now it's in my head, that's what someone saidCould have been you, could have been me  
Could have been him, or history  
Could have been you, could have been me  
Gonna get it with or without you- guitar solo -I don't need a shot, I'll take what you've got  
Now it's in my head, that's what someone saidSomething good, something bad  
Something special, something sad  
Something good, something bad  
Gonna get it with or without youSomething good, something bad  
Gonna get it with or without you
