

The Dark Won't Get Darker

Bobby Long

So take off your coat, and let in all the light

we can go for a walk, do anything you like

you could tell me all your problems, set your stall, lay a marker

I'd tell you the rich stay rich, but the dark won't get darker
You'll be sorry if you never know, it's what keeps us
all complete

if you need a friend, or you're feeling low, then baby stick with me,

times pass and fall, down the darkened road
I saw you walking with a note, I saw you lay it on down,

you could of told me your mind, so I could turn it around,

you should tell me all your problems, set your stall, lay a marker,

I'd tell you the rich stay rich, but the dark won't get darker
