

North Wind

Lakefield

That's how it goes
You take one last good look in the bathroom mirror before the show
That's how it goes
Breath mint, time check, wallet and keys / time to leave everything you know
That's how it goes

The summer sunshine was not enough to make you want to stay
The north wind, to spite me, it picked you up and carried you away

That's how it goes
If you could choose only one thing to take down south with you when you go
That's how it goes
Make it this song to remind you of just how strong the north wind can blow
That's how it goes

The summer sunshine was not enough to make you want to stay
The North wind, to spite me, it picked you up and carried you away
Winter weekends without you near will never feel the same
The distance between us is not so great it canâ€™t be bridged by plane
