Modern Hearts

The Knocks

The nights will bring us together
We stay here wishing for dark
Light comes above the river
Then we fade awayI need to know, will you wait for us?
To find the sun
I need to know, is there a place for love
And modern hearts?Your eyes have seen our emotion
They're changing here in the dark
Soon we'll be in the open
And the day will startI need to know
I need to know
I need to knowI need to know, will you wait for us?
To find the sun
I need to know, is there a place for love
And modern hearts?I need to know, is there a place for us?
To find the sun
I need to know, is there a place for love
And modern hearts?
