Blue With Blue

John Gregory

It breaks my heart to see you cry.
To close the door and say goodbye
But I've run out of space and time
Now there's no place left for us to hide
I was just to late to learn that you can't take a heart
And not give in return
Now your eyes don't see mine anymoreSo I am going down to the ocean
Down to the sea
To wash these sins all off of me
And drown this pain and bad memories
And leave blue with blue
And never look back againChoices come and choices go
Temptation got the best of me you know
I'm saying that I'm gonna change
Well the more you push the more I stay the same
We've been through so many brand new starts
Well the more you cry the more you start
And I just don't feel me anymoreSo I'm going down to the ocean
Down to the sea
To wash these sins all off of me
And drown this pain and bad memories
And leave blue with blue
And never look back againNever looking back againI broke your heart I broke your trust
All your forgiveness was a blessing that I couldn't see
Is there redemption for meI go down to the ocean
Down to the sea
To wash these sins all off of me
And drown this pain and bad memories
And leave blue with blue
And never look back again
