

# Something

## Butthole Surfers

Something she said to me last night,  
Something she said to me.  
I saw the sunrise over my daddy's grave  
And I ate some rice and cheese today.  
Something she said to me last night,  
Something she said to me,  
She been talking behind my back again,  
This time she`s gonna bleed.  
Something she said to me last night,  
Something she said to me,  
I saw the sunrise over my daddy's grave,  
And I ate some rice and cheese today.  
Something she said to me last night,  
Something she said to me,  
She been talking behind my back again,  
This time she`s gonna bleed.  
Something she said to me last night,  
Something she said to me,  
When I kick her in the knee she goes out the door,  
I just know she`ll be back for more
