20 Days

Bombshell Rocks

See another day
I try to kill the time
But this time it stays aliveYou could say
I'm a long distance caller
40 minute action
And a 10 hour driveSome dreams come true
That's one thing I know
And girl
I've got 20 more days to go20 more days to go
20 more days to go
20 more days to go
20 more days to go
To goI see another day
Same old situation
But in a different placeI'm just a kid out on a mission
I look out through the window
And start dreaming awaySome dreams come true
That's one thing I know
And girl
I've got 20 more days to go20 more days to go
20 more days to go
20 more days to go
20 more days to go
To goTonight I'll be alright
Yeah, I'm gonna be okay
There's nothing standing in the wayWhen the night arrives
And the sun comes down
To put a final ray of light
On a dirty townTonight I'll be alright
Yeah, I'm gonna be okay
There's nothing standing in the wayWhen the night arrives
And the sun comes down
Yeah, girl
You're gonna hear the sound20 more days to go
20 more days to go
20 more days to go
20 more days to go
20 more days to go
To go
