Dream About You

Satanic Surfers

Hey girl, I've been thinking about you
Everyday, all the time
When I wake up in the morning
When I go to bed at night
I'd like to tell you that I love you
But I'm afraid that won't do it rightHey girl, I've been thinking about you
Everyday, all the time
When I saw you the first time
You were with some friends
Ever since that day I've had you on my mindThen when the night comes and I go to bed
I close my eyes and I see you in my head
You take off my clothes and I take off yours
Your dad is downstairs so we close the door
I dream about you - every night
I dream about you - little girlHey little girl, you know I love
everything about you
The things that you say
The things that you do
I dream about you
