Not Today Baby

Crash Test Dummies

Well they're willing and their able
When they come over to my table
And say, "Hello, there..."
There's a Jane and a Julie
And then there's simply yours truly
Sitting alone here
They say one day I'll finally settle down
Not today, baby, cause there's
A whisper in the breeze
Can you hear, baby?
Hear it callin' out to me
So move along, baby
Well they pay my lots of money
Just to stand up and be funny
For an hour
Then the bees want some honey
And then oh-boy-all-of-a-suddenly
I'm their flower
They say one day I'll finally
Come around

Not today, baby, cause there's
A whisper in the breeze
Can you hear, baby?
Hear it callin' out to me
So move along, baby
Don't know what's comin' at me
Or who's such and such
As long as I'm this happy
I don't care, care too much
Well the show is all over
And I'm rolling in the clover all alone here
And I know you'd keep my company
But I'm really very comfy on my own, here
They say one day I'll finally stay in town
Not today, baby, cause there's
A whisper in the breeze
Can you hear, baby?
Hear it callin' out to me

So move along, baby
