Scrappy Love

Tricky

Where've you been, love?
How've you been, love?
It's a long time since I've seen love
You make me happy, love
Hope that you're happy, love
I was a scrappy loveI feel like I'm stupid now
I feel like I'm stupid nowHow've you been, love?
I've committed a sin, love
You care for him, love?
He's good for you, love
Guess who has sinned, love?
She asked how you're doin', love
I feel kind of stupid, love
To the noose,to the neck,to the push,to the shoveHow much time has it been, love?
How much time has it been, love?We don't even speak now
Remember the first walk-out?
You fill my need
You tell me to read
We sat in the park
We sat just apartBut not for our own love
We grew a strong love
But not for our own love
We grew a strong love
Wish I could sin love
Wish I could sin love
Wish I could sin loveWhere've you been, love?
How've you been, love?
It's a long time since I've seen love
You make me happy, love
Hope that you're happy, love
I was a scrappy loveI feel like I'm stupid now
I feel like I'm stupid nowHow've you been, love?
I've committed a sin, love
You care for him, love?
He's good for you, love
Guess who has sinned, love?
She asked how you're doin', love
I feel kind of stupid, love
To the noose,to the neck,to the push,to the shoveHow much time has it been, love?

How much time has it been, love?We don't even speak now
Remember the first walk-out?
You fill my need
You tell me to read
We sat in the park
We sat just apartBut not for our own love
We grew a strong love
But not for our own love
We grew a strong love
Wish I could sin, love
Wish I could sin, loveHow've you been, love?
It's a long time since I've seen love
You care for him, love?
He's good for you, love
He's good for you, love
