

# Horse

## Motorama

I'll make you love me till my end of time  
Make my soul unwind making me a home  
Holding me slowly  
But I'll still be watching your every move  
You know that I'll be holding on  
Until you get off your horse  
Make me a home, make me a home  
While seeds are growing your dome

And it could have been any other  
See a child only needs a mother  
I don't need another bother  
You know that I'll be holding on  
Until you get off your horse  
Bring me back to the day of nothing  
Bring me back to where I came from
