Grinning In Your Face

Little Axe

Don't you mind people grinning in your face
Don't you mind people grinning in your face

You just bear this in mind, a true friend is hard to find
So don't you mind people grinning in your face

Your mother will talk about you
Your sisters and your brothers too

Don't care how you trying to live
They'll talk about you still

Just bear this in mind, a true friend is hard to find
Don't you mind people grinning in your face

Don't you mind people grinning in your face
Don't mind people grinning in your face

Just bear this in mind, a true friend is hard to find
Don't you mind people grinning in your face

They'll jump you up and down
They'll carry you around and round
Just as soon as your back is turned
They'll try to crush you down

Just bear this in mind, a true friend is hard to find
So don't you mind people grinning in your face

Don't you mind people grinning in your face
Don't mind people grinning in your face

Bear this in mind, a true friend is hard to find
So don't you mind people grinning in your face
