

Strange Boat

Shivaree

Sailing in a strange boat
Heading for a strange shore
We're sailing in a strange boat
Heading for a strange shore
Carrying the strangest cargo
That was ever hauled aboard
We're sailing on a strange sea
Blown by a strange wind
We're sailing on a strange sea
Blown by a strange wind
Carrying the strangest crew
Who ever sinned
Riding in a strange car
We're followin' a strange star
We're climbing on the strangest ladders
Ever there to climb
We're living in a strange time
Working for a strange goal
We're living in a strange time
Working for a strange goal
We're turning flesh and body
Into soul
We're riding in a strange car
We're followin' a strange star
We're climbing on the strangest ladder
That was ever left to climb
We're living in a strange time
Working for a strange goal
We're living in a strange time
Working for a strange goal
We're turning flesh and body
Into soul
