Give It Up

Divine

You say that you'll be mine forever
Although I don't know why
But if you want to be my lover
Don't waste my timeI see you out with her around in town
Each and every day
But if you want me you must prove yourself
Give her up todaychorus
Give it up, baby give it up
Give it up, then you can call me up
Give it up.Although it's only from a distance
I've had my eyes on you
I'm sure you realize the problem
It's dealt to youI was not asking much to leave her out
But everything you do
And if you ever want somebody else
I'll find someone too.(chorus 3x)
