Puppet To The Man

Kurt Vile

Well I think by now you probably think I am a puppet to the man
Well, I'll tell you right now you best believe that I am
Sometimes I'm stuck in and I think I can unglue it
Sometimes I'm stuck in and I think I can unglue it
This one goes out to all those who want to rap to survive
Enough comes by saying, looting, I want 'em to die
My sister's stuck and she don't think she can unglue it
Sometimes I get stuck in a rut too, it's okay girlfriends
Sometimes I been rough so much I want it to end

Well I think by now you probably think I am a puppet to the man
But I shout it out loud because I now that I am
Sometimes I'm stuck in and I think I can unglue it
Will you help me do it, will you help me do it?
Will you help me do it, will you help me do it?
Will you help me do it, will you help me do it?
Will you help me do it, will you help me do it?
Will you help me do it, will you help me do it?
