

Stronger

Jah Cure

[Intro:]

Cure again

Come to give you more...

More of my time

Don Corleone... again

Gotcha[Verse 1:]

I've tried a lifetime to find you

Give me a moment just to remind you

Of the love we've not made before

The reason you cant close this door

I see confusion in your eye

And maybe you're a little surprise

The way we make love under the moon light

Tomorrow you use to the new life[Chorus:]

Come away in a dream

This world is not what it seems

There be no gold at the end ah the rainbow

Birds don't fly anywhere that the wind blowCome away in a dream

Life is not what is seem

Happily don't always live forever

But my love is getting stronger everyday

Stronger everyday[Verse 2:]

They tell me that diamonds are your friends

But diamonds won't be there in the end

I give you my love to remember

I keep you happier, happier, more happier

You should be mi bonefy

Nothing in this world can justify

Love inna you heart for I and I

It's You and I, You and I, baby

Maybe it's just faith

A time will simply be waiting

Is a chance to practice together

We can go in search of forever[Chorus:]

Come away in a dream

This world is not what it seems

There be no gold at the end ah the rainbow

Birds don't fly anywhere that the wind blowCome away in a dream

Life is not what is seem

Happily don't always live forever
But my love is getting stronger everyday[Bridge:]
Wooooooooooy
See the future in your eyes
Yeah, yeah
Stronger yeah, stronger yeah, stronger everyday
My love keep growing yeah, getting yeah
Stronger each day[Chorus:]
Come away in a dream
This world is not what it seems
There be no gold at the end ah the rainbow
Birds don't fly anywhere that the wind blowCome away in a dream
Life is not what is seem
Happily don't always live forever
But my love is getting stronger everyday
Stronger everyday
