

# Testify

Joe

Lady, I used to be the type to share all my lonely nights  
And wake up in the morning to a woman I barely knew or liked and  
Then you came along and changed my life and only now I realize  
I would never wanna jeopardize your heart and our love, that's why I got to testify, yeah, 'cuz you are so special  
lady, you  
Got to testify, yeah, I'm so glad that I found you  
I'm so glad that you chose me too  
And whatever I do, I'm gonna make sure you're happy I just learned the fact that you're, you're so spiritually  
grounded  
When I thought I lost my faith, it was you who helped me find it, lady  
And through all my hopes and dreams you always supported me  
Never once did you doubt me, you just cheered me on and  
Told me to be strong and that's why I got to testify, lady that your love is so incredible, so beautiful  
Got to testify, that every little thing you've done for me  
Is greatly appreciated, lady, that's why I gotta testify  
No matter how hard it gets you're always by my side, lady That's why I got love for you, that's why I got trust for  
you  
No matter how lost I get, I still somehow find my way back to you and  
And I promise, I promise to always try to stay true to you, girl  
And that's why, that's why I got to testify 'Cuz you are so wonderful to me, you are my precious queen, lady  
And I love how you always got my back lately whether I'm wrong or right  
And you're always, always by my side that's why I love you  
And I'll do the same for you 'til the day I die
